

Solar Farm Information 6/9/12

To All Concerned:

There will be a hearing on June 13 at the Guilford County Courthouse concerning two properties who have signed non-binding agreements for re-zoning, one of which is at the area of Liberty Road and Field-Horney. Several landowners in southeast Guilford County have been approached for leasing their land for solar farms. There are links below to what has been uncovered so far. The landowners have been receiving a 32-page lease agreement that I have a copy of which will tie up the land for 15-20 years. Relatively little information has been provided.

Is it in our best interest to attend this meeting to ask questions concerning the impact of the southeast? I would like to hear your thoughts on this and whether you will be attending this hearing or not. We could use your input if you have any information. Please let me know by Monday, June 11 if possible. Many thanks,
Denise
